

Course title: Final Paper
Course code: P95134
ECTS credits: 4
Requirements: Passed exams prescribed by the study program, conducted practical training with a turned-in and approved report, approved topic by the college department responsible for the field of choice to which the course belongs.
Basic information
Level of studies: Undergraduate applied studies
Year of study: 3
Trimester: 9
Goal: Students will show the ability to apply theoretical and practical knowledge acquired over the course of studies. The ability to independently use national and foreign literature, i.e. to put to use the knowledge, facts, and attitudes expressed in those sources.
Outcome: Through the creation of the final paper, the student should master the theoretical framework of the given topic, the methodology of writing the final paper, the research and data processing methodology, get familiar with relevant national and foreign literature, and acquire the ability to theoretically and practically solve problems in the area of postal and banking technologies.
Contents of the course
Theoretical instruction
Practical instruction (Problem solving sessions/Lab work/Practical training)
1. Student's independent research
2. Getting familiar with the research methodology in the area of postal-logistics systems, as well as in areas more closely connected to the chosen topic
3. Preparation, writing, and defense of the final paper
Textbooks and References
Number of active classes (weekly)
Lectures:
Practical classes:
Other types of classes: 20
Grading (maximum number of points: 100)
Pre-exam obligations: Points

Quality of the final paper: 40
Presentation of the paper: 20
Activities on practical exercises:
Seminar work:
Colloquium:
Final exam: Points
Final paper defense: 40
